

**Stop giving in.
Start taking out.**

DON'T EAT--OR DRINK--WHERE YOU CAN'T SMOKE.

Okay, smokers. It's time to draw the line.

As far as the Mayor and the council are concerned, your rights don't matter. But your money still does.

You're 30% of the city's population, so whether this smoke-ban sticks is up to you.

**Show em you mean business
by giving em *no* business.**

(Luckily, you live in a town with great take-out and a liquor store on the corner, so it shouldn't be hard to do.)

Hang tough, smokers.

BOYCOTTS BREAK BANS

You don't have to smoke to believe in **civil liberties** and **private property rights** or think government's too intrusive. We urge our non-smoking friends to join us in our stand.
