Yes, I want to donate or become a member of the FORCES INTERNATIONAL organization to help you to defend the rights of ALL consumers against scientific misrepresentations and political repressions. I understand that the FORCES organization works to preserve the consumer's 'Freedom of Choice' and 'Freedom of Association'. I agree, the Freedom to Choose is my right. ANY prohibition (private or public), based on false science, is an assault on our civil rights and part of a political agenda aimed at the suppression of free choice. Through my membership, I support the cause of liberty, and I may be interested in getting involved in the campaign for the elimination/prevention of smoking restrictions.

**PLEASE NOTE: If you are resident of a state or nation where a chapter of FORCES is present, your information will be forwarded to that chapter.**
