

## Smoking

Poll #11873, 500 Adults, +/- 4.5%

### Notes For Survey USA Poll No. 11873:

1. 58 percent of respondents believe that smoking should be permitted in bars.
2. 41 percent believe that smoking should be banned from all bars and restaurants.
3. The core intolerant 41 percent will diminish as public disclosure of tobacco control misrepresentations increases and the adverse consequences of smoking bans are increasingly felt.
