>>>>>Hi James -

>>>>>

>>>>>We have spoken and communicated via e-mail regarding second-hand smoke in Washington State. I had planned to conduct a cotinine study here in our county, but the state DOH declined to provide the funding.

>>>>>

>>>>>I am contacting you now because our county health director has decided to initiate a smoke free ordinance later this year and I recommended you as a consultant. Our Board of Health is in support of the step and our attorney will be drafting the model ordinance and preparing for the legal challenge that we know will ensue.

>>>>>

>>>>>I'd like to check on your availability for consultation and specifically whether you could be available for a December presentation to our Board of Health when the ordinance will be passed.

>>>>>

>>>>>Because of you expertise in this area, we might also want to request your advice for which of the volumes of second hand smoke studies we should (and should not) include as part of the findings used to support the ordinance.
